

# **HEALTH AND HUMAN DEVELOPMENT**

## **UNIT THREE:**

**OUTCOME ONE: Describe and explain factors that affect the health and individual human development of Australia's children**

### **RESOURCES**

- Chapter 7, 8 & 9 of your textbooks including summary, extension and exam questions.
- Your notes from your workbook and handouts.

The SAC will consist of two parts-

Part 1- Data Analysis which comprises short answer questions.

Part 2- Primary School Activity and written component

### **Part 1- SAC = Tuesday 30th July**

**You will need to know the following:**

1. How to read data and identify trends in data
2. Definition of prevalence
3. How conditions may impact on the health of children.
4. Definition of mortality
5. Leading causes of mortality in children & reasons why they are the leading causes
6. Determinants of health that impact on children
7. How does nutrition impact on development?
8. How can play/games impact on child health and development

**What do you need to do to make sure you ACE the Data Analysis on Tuesday 30th July???**
